Merry Christmas and a Happy New Year

Dear Katrine, Kresten, and Ragnhild,  
I'm sure Ette has written you  
that I retired from teaching in  
New York State, and that I am in California.

for the year. I am in a school where our children come and go. The parents come to pick cotton. Some stay all the time, as the parents are machinists or foremen on the big ranches, but most of them come to pick cotton. For the time they make good wages, then come the rains and fogs, and they can't pick cotton. They live in little one room cabins. When there is no work it must be a miserable life. Our school will give free lunches and free breakfast to about 65% of our children. We have about 1000 children in our school - some stay only 2 or 3 weeks and then others come. It is interesting work, but I do not plan to stay more than this year. I hope this finds you all very well. Yours, Olga
